Jewellery Accounting
Software

We are providing software solutions to **Retail** jewellery shops, **Wholesale** jewellery business, **Jadatar (Antique)** jewellery **Manufacturers** and **Imitation** jewellery business.

Retail

We are providing robust software solutions to small, medium and large scale (multi-store management) shops. In retail jewellery shops, POS (Point of Sale) is very important part which can be managed with accuracy and easily.

- Saving scheme module
- Money Landing (Dhiran / Girvi) Module.

Wholesale

Any wholesaler can get best software solutions to manage metal and amount transactions. User can manage sale and purchase transactions using a single voucher entry. It makes their work smooth and fast.

- Metal and Amount transactions
- Approval issue/ Receive
- VP Parcel and so on.

JADTAR (ANTIQUÉ) JEWELLERY MANUFACTURING WORK

This is a process oriented software version. It helps to manage Antique jewellery manufacturing processes with useful output reports.

- It includes melting work
- Metal issue
- Wax/Ghat/Kundan management and so on.

Imitation

- Bulk Barcode Generation
- Brand wise MRP Discount
- Brand, Product and Group wise Movement Report
- Employee wise Sales
- Tag wise Old Item Report
